

Our overall aims for this Topic are: To try not to use the car to get to and from school so that we can be fit, have fun, be safe and help to reduce CO2 emissions.

Action	Who's in charge?	When will it be done by? (If ongoing, when did it start?)	How can we monitor it?	How will we know when we're successful?	How much will it cost?	Did it work? Any ideas for the future?
Review the school car and bike -share system						
Check to see if the school travel plan is up to date and on the eco boards and school website						
Try and get more dry storage for our bikes						
Ask if some of the nettles could be cut back in the woods so when we are walking and or cycling we don't get stung.						
Safe cycle routes to school from both sides of Dunbar (Old and New).						
Mini traffic lights on school grounds so children learn how to use them.
